Faster hiring, streamlined processes and reduced staff shortages

Performing your regular, day-to-day job can be challenging. Trying to find and hire the right candidates can make that job even more challenging. Staff shortages caused by unfilled positions only compound the difficulties for everyone in your agency. Online testing makes it possible to assess candidates at job fairs, outreach events or auxiliary offices. Immediate scoring allows for onsite job offers and other streamlined hiring processes. Application screening and testing can occur simultaneously.

These are the reasons CPS developed its Online Testing program. Adopting these faster, more convenient testing practices not only makes your job easier, it helps you fill positions more quickly with qualified individuals.
